

KEVIN HENNET

Dover, NH | 603-617-8462 | kevinhennet2007@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

EDUCATION

University of Massachusetts Amherst, Amherst, MA

B.S. Computer Science | GPA: 3.9 Aug. 2025 – Expected May 2029

- Coursework: Physics 1, Calculus 3, Linear Algebra, Object-Oriented Programming (Python & Java) — 36 credits via AP exams

Dover High School, Dover, NH

Diploma | GPA: 4.8272 (Weighted) | Rank: 9/304 Aug. 2021 – Jun. 2025

- AP Calculus BC, AP Statistics, AP Biology, AP Chemistry, AP US History, AP Microeconomics, AP Macroeconomics, AP Computer Science Principles; AP Scholar with Distinction, High Honors (all semesters); dual-enrollment CS coursework; National Honors Society member, National Technical Honors Society member

EXPERIENCE

Software Engineering Intern Jun. 2026 – Sep. 2026

Dot Corp — Remote

- Built a multi-language, browser-based code execution platform using Python FastAPI, Docker, and vanilla JS, supporting Python, Node.js, Java, C++, Go, and PHP runtimes
- Migrated the runtime architecture from a single Supervisor-managed container to Docker Compose with one isolated container per language runtime

Python Backend Intern Jul. 2024 – Sep. 2024

Superclouds — Remote

- Built RESTful API endpoints (GET, POST, PUT, DELETE) using Python and FastAPI to manage shipping manifest storage in a PostgreSQL database
- Developed an OCR pipeline to extract manifest text and automate customer shipping-status notifications

Customer Service Associate / Customer Service Leader Apr. 2023 – Present

Hannaford Supermarkets — Dover, NH

- Maintained front-end operations (transactions, bagging, carriage retrieval, returns, damages, etc), monitored self-checkout issues, resolved customer problem cases, and trained new employees
- Assisted with customer communication during the 2024 Ahold Delhaize cybersecurity breach

PROJECTS

NBA Player Analyzer | Python

- Filtered and normalized full NBA season statistics; built a dictionary-based weighted metrics engine for situational and user-defined player ranking scenarios
- Created graphical visualizations to portray player ranking metrics to pair with a terminal-based user interface

Legends of the Arena | Java

- Built a terminal turn-based combat game using abstract classes and interfaces to model heroes, enemies, and consumable items

LEADERSHIP & ACTIVITIES

Cru Amherst, MA

Member Aug. 2025 – Present

- Attended weekly meetings; participated in campus outreach events; attended national conference (Jan. 2026)

First Baptist Church Amherst, MA

Media Team Assistant Aug. 2025 - Present

- Managed media slides, lighting, sound, and live-stream production during weekly services

DHS Shockwave Robotics — Team 4546 Dover, NH

Safety Captain Dec. 2021 – Jun. 2025

- Prioritized and facilitated a safe working environment in shop and competitions; sole builder of the 2023 competition drivetrain; advanced to District Championships and won the Governor's Cup

DHS Career Technical Education Ambassador Dover, NH

Computer Programming Ambassador Aug. 2023 - Jun. 2024

- Provided tours and introduced potential CS courses and CS career pathways to incoming DHS freshmen

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML, CSS

Frameworks & Tools: FastAPI, Docker, Docker Compose, PostgreSQL, Git, REST APIs, OCR

Focus Areas: Software Development, Artificial Intelligence, Machine Learning
